# UNCERTAINTY

In these volatile times, we must rely on ourselves to defend our families and homes. Alarm systems and locks only buy time between violent threats and your family. Law enforcement response times vary, especially in times of unrest. Beyond these security measures, we must have other options to respond effectively to those threats.

## WHAT WE OFFER

Paladin Tactical US provides instruction for those seeking the tools to protect their families and homes. We guarantee a safe, yet dynamic, training environment for those who want to gain confidence in their self-defense skills.

## PACKAGES

We can tailor a training package for you, your family, or a group of friends. Paladin and our affiliates have a variety of courses available including Vehicle Counter-Ambush Tactics, combative and more.

## Home Defense Course

This one-day course focuses on how to defend yourself at home with a firearm. It's not enough to know how to shoot, you need to build a strategy and acquire critical skills to protect your home.

Our instructors will show you how to safely move through your home under low-light conditions. Know when it's legal to use force in self-defense.

Each day you will undergo force-on-force training in a professional shoot-house to test your skills and decision-making abilities. **NO LIVE FIRE IN THIS COURSE.**

### Topics to be covered:

- Strategies to protect your home.
- Shooting fundamentals
- Use of a flashlight in low-light environments
- Solo room clearing techniques
- Self-defense scenarios using AirSoft pistols against adversarial role players
